**Hexagon Fraction Worksheet**

A hexagon is a polygon that has six sides and six angles.

Shade the parts of the hexagon that represent each fraction

1

$\frac{1}{2}$

2

$\frac{3}{6}$

3

$\frac{4}{6}$

4

$\frac{1}{3}$

5

$\frac{2}{6}$

6

$\frac{5}{6}$

Prove whether the following fractions are equivalent. Give reasons:

7

a)

b)

8
