

Graphing Linear Inequalities from Standard Form

Use both x -intercept and y -intercept to graph each of the linear inequalities.

① $x + 5y < -5$

② $2x + 2y > -8$

③ $2x - y \leq -2$

④ $y < 6x + 1$

⑤ $5x - y \geq 5$

⑥ $x - 2y > 5$

Graphing Linear Inequalities from Standard Form

Answers

① $x + 5y < -5$

② $2x + 2y > -8$

③ $2x - y \leq -2$

④ $y < 6x + 1$

⑤ $5x - y \geq 5$
