Word Problems on Multiplication and Division

Solve each question. Show your work.

- ① A school bus can take 30 students. There are 3 such school buses going for a picnic. If each bus is full, how many students are going for the picnic?

- ② Nancy bought 4 pencils for \$32. How much does each pencil cost?

- ③ A movie theatre has 12 seats in each row. If there are 7 rows, how many seats are there in the theatre, in total?

- ④ David had 50 biscuits to take for his tiffin for 5 school days. If he eats an equal number of biscuits each day, how many does he eat each day at school?
