

Introducing Multiplication

Look at the given arrays, write in multiplication form.

The above array is a group of 4 sets each containing 2 apples, which can be written as $4 \times 2 = 8$. Thus there are 8 apples in total in the array.

$$3 \times 2 = \square$$

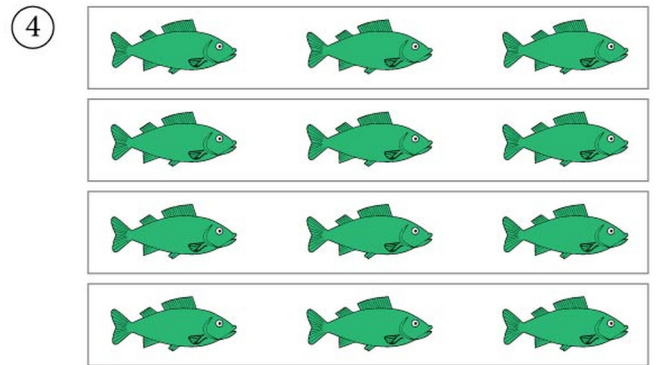

$$2 \times 5 = \square$$

$$3 \times 4 = \square$$

$$2 \times 4 = \square$$

$$4 \times 3 = \square$$

$$2 \times 2 = \square$$

Answers

The above array is a group of 4 sets each containing 2 apples, which can be written as $4 \times 2 = 8$. Thus there are 8 apples in total in the array.

$$3 \times 2 = 6$$

$$2 \times 5 = 10$$

$$3 \times 4 = 12$$

$$2 \times 4 = 8$$

$$4 \times 3 = 12$$

$$2 \times 2 = 4$$
