

Calculating Money Change

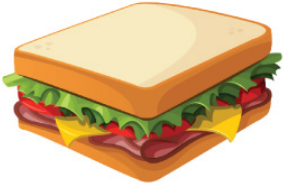

Imagine you are in charge of a canteen. Customers are placing orders for the food items on sale. You need to calculate how much change to give them back when they pay you.

Sandwich	1 Slice of Pizza	Drink	Ice-cream
			
\$4.50	\$1.25	\$3.20	\$1.75

Order	They give you	Change
1 Sandwich and a drink	\$10.00	\$ _____
2 slices of pizza and an ice-cream	\$5.00	\$ _____
1 Sandwich, a slice of pizza, and a drink	\$15.00	\$ _____
1 sandwich, 2 slices of pizza, a drink, and an ice-cream	\$20.00	\$ _____

Calculating Money Change

Answers

Sandwich	1 Slice of Pizza	Drink	Ice-cream
			
\$4.50	\$1.25	\$3.20	\$1.75

Order	They give you	Change
1 Sandwich and a drink	\$10.00	\$ <u>2.30</u>
2 slices of pizza and an ice-cream	\$5.00	\$ <u>0.75</u>
1 Sandwich, a slice of pizza, and a drink	\$15.00	\$ <u>6.05</u>
1 sandwich, 2 slices of pizza, a drink, and an ice-cream	\$20.00	\$ <u>8.05</u>
