Answers

A house-shaped diagram with a red outline. The roof is a triangle containing three circles: 11 at the top, 8 on the left, and 3 on the right. The main body of the house is a rectangle containing four rows of math equations. Each number in the equations is inside a rounded square box.

$$\begin{array}{l} 8 + 3 = 11 \\ 3 + 8 = 11 \\ 11 - 8 = 3 \\ 11 - 3 = 8 \end{array}$$

A house-shaped diagram with a yellow outline. The roof is a triangle containing three circles: 19 at the top, 9 on the left, and 10 on the right. The main body of the house is a rectangle containing four rows of math equations. Each number in the equations is inside a rounded square box.

$$\begin{array}{l} 9 + 10 = 19 \\ 10 + 9 = 19 \\ 19 - 9 = 10 \\ 19 - 10 = 9 \end{array}$$

A house-shaped diagram with a purple outline. The roof is a triangle containing three circles: 20 at the top, 6 on the left, and 14 on the right. The main body of the house is a rectangle containing four rows of math equations. Each number in the equations is inside a rounded square box.

$$\begin{array}{l} 6 + 14 = 20 \\ 14 + 6 = 20 \\ 20 - 6 = 14 \\ 20 - 14 = 6 \end{array}$$

A house-shaped diagram with a red outline. The roof is a triangle containing three circles: 15 at the top, 7 on the left, and 8 on the right. The main body of the house is a rectangle containing four rows of math equations. Each number in the equations is inside a rounded square box.

$$\begin{array}{l} 7 + 8 = 15 \\ 8 + 7 = 15 \\ 15 - 7 = 8 \\ 15 - 8 = 7 \end{array}$$
