

Name : _____

COUNTING SQUARES

Find the area and perimeter of each shape by counting the squares.

Take $\begin{matrix} 1\text{m} \\ \square \\ 1\text{m} \end{matrix}$

① Example

Area = 12 m²
Perimeter = 14 m

②

Area = _____
Perimeter = _____

③

Area = _____
Perimeter = _____

④

Area = _____
Perimeter = _____

⑤

Area = _____
Perimeter = _____

⑥

Area = _____
Perimeter = _____

⑦

Area = _____
Perimeter = _____

⑧

Area = _____
Perimeter = _____

⑨

Area = _____
Perimeter = _____

Name : _____

COUNTING SQUARES

Answer

① Example

Area = 12 m²
Perimeter = 14 m

②

Area = 20 m²
Perimeter = 18 m

③

Area = 10 m²
Perimeter = 14 m

④

Area = 24 m²
Perimeter = 22 m

⑤

Area = 16 m²
Perimeter = 16 m

⑥

Area = 30 m²
Perimeter = 22 m

⑦

Area = 25 m²
Perimeter = 20 m

⑧

Area = 20 m²
Perimeter = 20 m

⑨

Area = 4 m²
Perimeter = 8 m
