

Fraction Location on the Number Line

Solve the given problems using the number lines.

Example:

i) On this number line, what is the value of 0 written as a fraction?

ii) Find the distance between A and B.

i) The number line is divided into parts.

ii) What is the location of C?

i) On this number line, what is the value of 1 written as a fraction?

ii) What is the location of D?

i) The number line is divided into parts.

ii) Find the distance between E and F.

i) On this number line, what is the value of 0 written as a fraction?

ii) What is the location of G?

Fraction Location on the Number Line

Answers

Example:

i) On this number line, what is the value of 0 written as a fraction?

$\frac{0}{7}$

ii) Find the distance between A and B.

$\frac{4}{7}$

i) The number line is divided into 5 parts.

ii) What is the location of C?

$\frac{3}{5}$

i) On this number line, what is the value of 1 written as a fraction?

$\frac{4}{4}$

ii) What is the location of D?

$\frac{1}{4}$

i) The number line is divided into 6 parts.

ii) Find the distance between E and F.

$\frac{1}{2}$

i) On this number line, what is the value of 0 written as a fraction?

$\frac{0}{10}$

ii) What is the location of G?

$\frac{7}{10}$
