# Division in Equal Groups

1

Divide 9 squares into 3 equal groups

$$\underline{9} \div \underline{3} = \underline{3}$$

2

Divide    squares into    equal groups

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

3

Divide    squares into    equal groups

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

4

Divide    squares into    equal groups

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

5

Divide    squares into    equal groups

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

6

Divide    squares into    equal groups

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

# Division in Equal Groups

## Answers

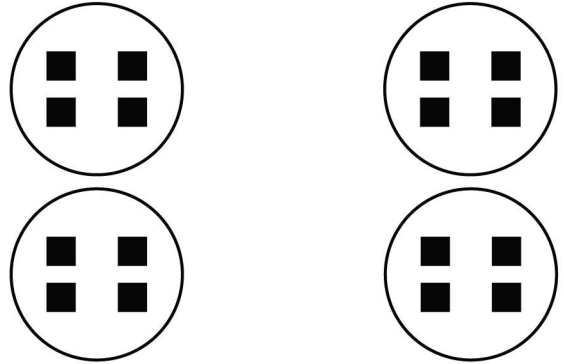

1

Divide 9 squares into 3 equal groups

$$\underline{9} \div \underline{3} = \underline{3}$$

2

Divide 16 squares into 4 equal groups

$$\underline{16} \div \underline{4} = \underline{4}$$

3

Divide 20 squares into 2 equal groups

$$\underline{20} \div \underline{2} = \underline{10}$$

4

Divide 15 squares into 3 equal groups

$$\underline{15} \div \underline{3} = \underline{5}$$

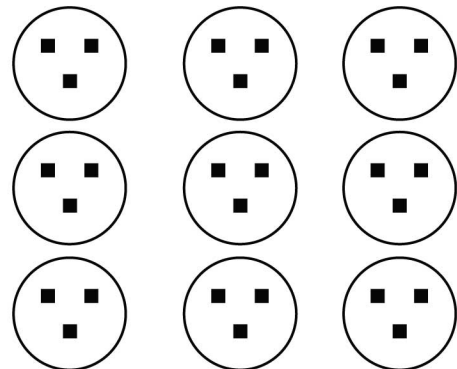

5

Divide 20 squares into 5 equal groups

$$\underline{20} \div \underline{5} = \underline{4}$$

6

Divide 27 squares into 9 equal groups

$$\underline{27} \div \underline{9} = \underline{3}$$
