

Division With Arrays

Write the division sentences to find how many in each row and column.

Example:

Each row has:

Each column has:

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

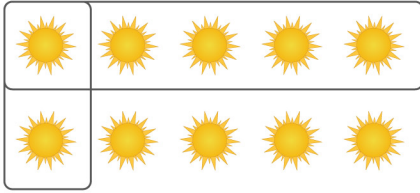

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

Arrays	Each row has:	Each column has:
	$\underline{\quad} \div \underline{\quad} = \underline{\quad}$	$\underline{\quad} \div \underline{\quad} = \underline{\quad}$
	$\underline{\quad} \div \underline{\quad} = \underline{\quad}$	$\underline{\quad} \div \underline{\quad} = \underline{\quad}$
	$\underline{\quad} \div \underline{\quad} = \underline{\quad}$	$\underline{\quad} \div \underline{\quad} = \underline{\quad}$
	$\underline{\quad} \div \underline{\quad} = \underline{\quad}$	$\underline{\quad} \div \underline{\quad} = \underline{\quad}$

Division With Arrays

Answers

Example:

Each row has:

$$10 \div 2 = 5$$

Each column has:

$$10 \div 5 = 2$$

Arrays	Each row has:	Each column has:
	$12 \div 3 = 4$	$12 \div 4 = 3$
	$8 \div 4 = 2$	$8 \div 2 = 4$
	$14 \div 2 = 7$	$14 \div 7 = 2$
	$15 \div 3 = 5$	$15 \div 5 = 3$
