

Parallel, Perpendicular and Intersecting Lines

1. Identify if the pairs of lines are 'Parallel', 'Perpendicular' or 'Intersecting'.

- a) \overleftrightarrow{AB} and \overleftrightarrow{PQ} _____
- b) \overleftrightarrow{CD} and \overleftrightarrow{EF} _____
- c) \overleftrightarrow{UV} and \overleftrightarrow{EF} _____
- d) \overleftrightarrow{XY} and \overleftrightarrow{CD} _____
- e) \overleftrightarrow{PQ} and \overleftrightarrow{RS} _____
- f) \overleftrightarrow{PQ} and \overleftrightarrow{EF} _____
- g) \overleftrightarrow{AB} and \overleftrightarrow{CD} _____

2. Draw a pair of the following lines.

- a) Parallel lines
- b) Perpendicular lines
- c) Intersecting lines

3. Write 'Parallel' or 'Not Parallel' for each.

a)

b)

c)

Parallel, Perpendicular and Intersecting Lines

1.

Answers

- a) \overleftrightarrow{AB} and \overleftrightarrow{PQ} Intersecting
- b) \overleftrightarrow{CD} and \overleftrightarrow{EF} Parallel
- c) \overleftrightarrow{UV} and \overleftrightarrow{EF} Perpendicular
- d) \overleftrightarrow{XY} and \overleftrightarrow{CD} Perpendicular
- e) \overleftrightarrow{PQ} and \overleftrightarrow{RS} Parallel
- f) \overleftrightarrow{PQ} and \overleftrightarrow{EF} Intersecting
- g) \overleftrightarrow{AB} and \overleftrightarrow{CD} Parallel

2.

- a) Parallel lines
- b) Perpendicular lines
- c) Intersecting lines

3.
